**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. A camera system for recording images, said camera system comprising:  
an electronic image sensor for sensing an image;  
a digital processing means for processing said sensed image in accordance with predetermined processing requirements;  
a photo width ink jet printer means for printing said processed image on a surface of ink jet print media, said print media being treated so that it is magnetically sensitive and includes[ing] an expansive magnetic recording surface which is at least the same size as said printed image; and  
a magnetic recording means for recording associated information on said magnetic recording surface.
2. (Original) A camera system as claimed in claim 1 wherein said associated information comprises audio information associated with said sensed image.
3. (Original) A camera system as claimed in claim 1 wherein the printer means prints said sensed image on a first surface of said print media and the magnetic recording means records said associated information on a second surface of said print media.
4. (Original) A camera system as claimed in claim 1 wherein said print media is stored on an internal detachable roll in said camera system, said camera system comprising a hand held portable camera device, said photo width ink jet printer being built into said hand held portable camera device.
5. (Original) A camera system as claimed in claim 3 wherein said first and said second surfaces are on different faces of said print media.
